WORK EXPERIENCE

Senior Frontend Developer - Fusion 360

July 2024 - Present

- Develop and maintain scalable web applications using **React** and **NextJS** with **Tailwind CSS** for enhanced UI.
- Automate workflows to streamline project delivery and improve team productivity.
- Collaborate with cross-functional teams to ensure alignment with product management and UX design, applying Agile methodologies for sprint planning and task breakdown.

Frontend Developer - Square Agency LLC

August 2023 - Present

- Design and implement responsive, user-friendly websites in **Figma**, ensuring seamless UX and functionality.
- Build high-performance landing pages using **NextJS** and **Tailwind**, optimized for scalability and cross-browser compatibility.
- Work closely with clients to understand project goals and deliver solutions that exceed expectations, maintaining open communication to address evolving needs.

Full Stack Developer - Solera (AFP Habitat Project)

October 2022 - July 2023

- Developed a reusable UI toolkit with **Styled Components** and **MUI**, documented with **Storybook** for scalable, modular front-end architecture.
- Integrated APIs for a new system managing 401k contributions, ensuring high availability and reliable data flow.
- Collaborated on UX/UI flows for the user registration process, emphasizing an efficient, intuitive design.
- Created APIs in **Laravel PHP** and **Oracle SQL**, including a third-party integration for biometric validation, enhancing security in the user registration flow.

Frontend Developer - Prayaga Solutions

September 2022 - October 2022

- Identified UX/UI improvement opportunities for an internal communication platform, contributing ideas for enhanced user experience and interface.
- Designed **Figma** UI elements and developed them as **React** components, delivering high-impact visual improvements for clearer, more accessible information on client dashboards.

Junior Frontend Developer - GCC Networking

April 2021 - March 2022

- Designed and developed, using **React**, digital solutions for clients to streamline processes and improve communications.
- Designed and built APIs, using **ExpressJS** (NodeJS) and **MongoDB**, to integrate with the frontend enabling efficient data retrieval, management, and real-time updates while ensuring robust security.

SKILLS

- **Languages & Frameworks:** HTML, CSS, JavaScript, React, NextJS, Tailwind CSS, Material UI, Styled Components, NodeJS, ExpressJS, MongoDB, PHP, Laravel, SQL
- **Tools & Platforms:** Git, Docker
